SKILLS

- **Languages:** Python, Java, JavaScript, HTML/CSS, SQL
- **Frameworks/Libraries:** React, Next.js, FastAPI, Flask, Three.js, Tailwind CSS, TensorFlow.js, Leaflet, Supabase
- **Tools:** Git, GitHub, Firebase, Vercel, Render, Figma, Notion, Vite, Jira

EDUCATION

Bachelors of Science, Computer Science (Co-op), Toronto Metropolitan University

Expected April 2028

- **Relevant Courses:** Discrete Mathematics, Computer Science I (Python), Computer Science II (Java)

WORK EXPERIENCE

AI Data Trainer, Cohere

Feb 2025 — Aug 2025

Remote | Toronto, ON

- Annotated and labeled diverse **multimodal** datasets, including text and image data, to train and enhance Cohere's large language models
- Evaluated AI model outputs for accuracy, coherence, and context across multiple modalities, contributing to **iterative model improvements**
- Followed detailed annotation guidelines to **prompt engineer**, label linguistic and visual data, ensuring high-quality datasets for **supervised machine learning** tasks

Code Sensei, Code Ninjas

May 2023 — Aug 2024

Coding Franchise | North Etobicoke, ON

- Delivered personalized, project-based coding lessons in **JavaScript**, and **C#**, teaching fundamentals such as **object-oriented programming**, **data structures**, **algorithms**, and **game development basics**, while simplifying complex concepts for young learners
- Led **5+** coding camps with **20+** students each, focusing on hands-on learning in **game mechanics**, **scripting**, and **problem-solving**, ensuring high levels of engagement and satisfaction that contributed to increased program registrations

EXTRACURRICULARS

Computer Science Course Union, 3x Year Representative

Oct 2024 – Present

Toronto Metropolitan University

- Advocated for **500+** computer science students by bridging communication between professors, TAs, and the course union, ensuring their concerns were effectively addressed
- Created a **responsive website** consolidating first-year resources and implemented feedback forms, increasing student engagement, and providing actionable insights for improving academic experiences

Google Developer Groups, Corporate Relations Director

Sep 2024 – Present

Toronto Metropolitan University

- Secured coffee chats with potential corporate sponsors, establishing partnerships to provide financial support and valuable resources
- Contributed to growing the Developer Group to **2000+** members in one year, fostering a vibrant community of developers.
- **Led** a sponsorship sub-team, overseeing networking strategies, email outreach, and outbound communication to strengthen corporate relationships and expand group opportunities to successfully help it become the **largest** developer group across Canada

PROJECTS

LittleToronto | Personal Project

Mar 2026

- Built a **React web app** with Leaflet and OpenStreetMap featuring an interactive map with custom markers, and a Toronto-bounded viewport.
- Integrated **Google Gemini** to power an AI neighbourhood guide that recommends areas based on **natural language queries**, with keyword-based local fallback for reliability.
- **Produced, filmed and edited** original video content showcasing each Toronto neighbourhood, integrated for an immersive user experience.
- [Website Link](#)

Argus | Mac-a-thon, McMaster University

Feb 2026

- Built a full-stack government intelligence platform using **Next.js**, **React**, and **FastAPI** to surface early-stage government opportunity signals.
- Implemented an AI-powered matching system using **Gemini embeddings** and a weighted **scoring formula** to rank startups to signals.
- Engineered an interactive 3D globe interface with **Three.js** to visualize ranked government signals, enhancing user engagement.

Gøøse | Hackathon Win | Technova, University of Waterloo

Sep 2023

- Collaborated to design and develop an interactive website automating blockchain transactions with Hedera, **optimizing** transaction speed.
- Utilized **React**, **Next.js**, **Tailwind CSS**, and **Voiceflow** to build an intuitive, responsive platform on an open source codebase
- Awarded **"Best Use of Hedera"** for innovation and technical excellence in a hackathon with **150** competitors
